

Québec Apple Marketing Survey

2020 harvest

About the survey

The objective of the *Québec Apple Marketing Survey* is to gather performance indicators to monitor changes in this sector.

Mandatory response

Given the importance of the survey results, your participation is mandatory in accordance with the *Act respecting the Institut de la statistique du Québec* (chapter I-13.011).

Confidentiality

The Institut de la statistique du Québec (Statistique Québec) entered into an information-sharing agreement with Statistics Canada to avoid duplicating surveys. The federal *Statistics Act* contains the same provisions as the *Act respecting the Institut de la statistique du Québec* with regard to the protection of the confidential information you provide.

Quality monitoring

For quality and training purposes, telephone interviews with Statistique Québec agents are recorded. However, if you don't want the interview to be recorded, simply notify the agent at the beginning of the call.

Assistance

If you require any assistance, please contact the Direction de la gestion de la collecte by phone at 1-800-561-0213 or by e-mail at collecte@stat.gouv.qc.ca.

Instructions

- ▶ Please take into account all of the orchards you operated in 2020.
- ▶ Beginning on July 12, 2021, Statistique Québec will contact you by phone to collect your information. To prepare for this call, we invite you to fill out the attached questionnaire. You can also return your completed questionnaire by mail using the prepaid return envelope before July 12.
- ▶ Please keep a copy of the completed questionnaire for your records.

Section 1 Characteristics of the apple growing operations

- ▶ For the orchard identified below, please check the appropriate box to indicate whether you were the operator in 2020 and whether you are still the operator in 2021.
- ▶ Also provide the surface area and the number of trees in 2020.
- ▶ Use Section 2 (page 6) to list the orchards you operate that do not appear in this section.

The **surface area** must exclude farm yards and buildings, roads, wooded areas, etc.

By **non-productive** trees, we mean recently planted trees that do not yet produce apples.

Section 3 Apple harvest

- When responding to the questions in this section, please take into account all of the orchards you operated in 2020 (orchard(s) identified in sections 1 and 2).

EARLY varieties of apples

3a In 2020, did you harvest any early varieties of apples?

Early varieties = All varieties of apples that come to maturity or are produced before the Paulared variety

- Yes
 No → [Go to question 4a](#)

3b Indicate the total production of early varieties of apples.

1 bushel = 42 pounds or
19.05 kilograms

_____ bushels

3c In the following table, indicate the information concerning the distribution of early varieties of apples harvested, according to the type of market.

If some information is unavailable, provide an estimate that is as accurate as possible.

The **amount received** corresponds to the money that you, as a producer, actually received from the sale of your harvest.

In cases of sales where the buyer withholds or deducts an amount, the amount received corresponds to the net amount paid by the buyer. The amounts withheld or deducted by the buyer must never be added to the amount received.

In the case of sales that were **directly concluded with consumers** or retailers, the **amount received** corresponds to the money that you actually received as a result of these transactions.

You must report the volume of apples sold (graded and ungraded) to packers and grower-packers as well as the proceeds of the sale.

	Quantity distributed (bushels)	Amount received (\$)
a) Apples sold to packers and to grower-packers	_____	\$ _____
b) Processors (for purée, pie fillings, etc.)	_____	\$ _____

LATE varieties of apples

4a In 2020, did you harvest any late varieties of apples?

Late varieties = All varieties of apples that come to maturity or are produced at the same time as the Paulared variety or later

- Yes
 No → [Go to section 4](#)

4b Indicate the total production of late varieties of apples.
