

Study on the Languages Spoken in Québec 2025–2026

November 2025

File number: E442-XXXX

Greetings,

The Institut de la statistique du Québec (ISQ) is conducting a study that aims to obtain a picture of the **knowledge and use** of languages in Québec. You are among the thousands of people in Québec who have been selected **at random** to participate. Your participation consists in answering a questionnaire about the languages you know well enough to hold a simple conversation, the languages you speak at home, at work or with your friends, and the languages in which you listen to music, watch TV shows, etc.

Your participation is important, whether you speak French, English, or any other language. There are two easy and safe options to participate in this study.

Option 1	Scan the QR code on the right or go to the address provided to access the online questionnaire.	
	Enter your identifier	XXXXXX

The questionnaire takes about 15 minutes to complete. If necessary, you can exit the questionnaire and return to finish it at another time.

Option 2	Call us to complete the questionnaire with the help of an interviewer.	
	Monday to Thursday: 9 a.m. to 8:30 p.m. Friday: 9 a.m. to 4:30 p.m. Saturday: 10 a.m. to 4:30 p.m. Sunday: 10 a.m. to 8:30 p.m.	1-800-561-0213

If you have not submitted your questionnaire online or answered it by phone, the ISQ will call you to obtain your answers. If you are not available when we call, just let us know what time would be more convenient for you.

For more information about this study or assistance, please get in touch with the ISQ using the contact information provided below. You will also find additional information at statistique.quebec.ca under "Surveys".

This study is conducted in accordance with the *Act respecting the Institut de la statistique du Québec*. Your answers will remain **confidential** and will only be used for statistical purposes. The ethics committee appointed by the ISQ reviewed the study to ensure it is conducted in a way that respects participants and protects their dignity.

Thank you for your cooperation. By participating in this study, you are helping us produce high-quality statistics.

Sincerely,

Marc Sirois
Chief Statistician
