Greetings,

Your business is requested to participate in the *Annual Mineral Production Survey – Non-metallic Commodities (Stone, Aggregates, Clay and Refractory Minerals)* conducted by the Institut de la statistique du Québec (ISQ) on behalf of the Ministère des Ressources naturelles et des Forêts (MRNF). The objective of the survey is to provide an accurate picture of mining activity in Québec so that the government can adopt the most appropriate measures for this industry.

Given the importance of the survey results, your participation is **mandatory** in accordance with the *Mining Act* (chapter M-13.1, sections 221 and 222).

To participate, you must go to the web address indicated in the box at the top of this letter, enter your identifier and complete the online questionnaire. If necessary, you can exit the questionnaire and return to finish it at a more convenient time. The questionnaire must be completed by **June 20, 2025**.

To familiarize yourself with the questionnaire, we strongly suggest that you fill out the paper version of the questionnaire and read the Participant Guide before completing the online questionnaire. These documents are available at the following links:

- **Printable questionnaire:** <https://statistique.quebec.ca/en/fichier/apmq03-quest.pdf>
- **Participant Guide:** <https://statistique.quebec.ca/en/fichier/apmq03-guide.pdf>

If you would like more information about this survey or require assistance, please contact us. You will also find additional information on our website (statistique.quebec.ca) under "Surveys".

Under the delegation agreement for the Programme des statistiques minières du Québec signed with the MRNF, the information you provide will be shared with them. It will also be shared with Statistics Canada, Natural Resources Canada, and Environment and Climate Change Canada. Rest assured that your information will only be used for statistical purposes, as guaranteed by the *Mining Act*.

Thank you in advance for your cooperation. By participating in this survey, you are contributing to the production of quality Québec statistics.

Simon Bergeron  
Chief Statistician
