Instructions for completing thisquestionnaire and consent

Across Québec, thousands of high school students will be participating in this important survey that collects data on young people's lifestyle habits in order to track changes over time. These habits include screen use, physical activity, smoking, vaping, alcohol and drug use, and gambling.

Your answers will help decision-makers develop policies and programs for Québec's youth.

THIS QUESTIONNAIRE IS NOT AN EXAM.
THERE ARE NO RIGHT OR WRONG ANSWERS.

No one in your school will be able to see your answers.

The Institut de la statistique du Québec guarantees that your answers to this questionnaire will be kept confidential in accordance with the *Act respecting the Institut de la statistique du Québec*.

By completing this questionnaire, you agree that the answers collected in this survey by the Institut de la statistique du Québec can be sent to the Ministère de la Santé et des Services sociaux du Québec, except for any information that could directly identify you.

Instructions:

- Don't write your name (or any other names) in the questionnaire.
- Carefully read the questions and the response options.
- Only give one answer per question, unless requested otherwise.
