

2024

Dear parent(s),

The *Growing Up in Québec* adventure continues! First of all, we want to thank you sincerely for your contribution and the important role you play in this study.

Growing Up
in Québec

Québec Longitudinal Study
of Child Development, 2nd edition
QLSCD 2 | COHORT 2018

Data collection coming up in spring 2025

Next spring, we will be collecting new information from the participating families. In the next few weeks, we will be in touch to let you know what's new this year.

Contact with your child's school

Just like last time, we will invite your child's homeroom teacher to answer a questionnaire. To facilitate communications, we will soon contact your child's school to obtain his/her teacher's work contact details.

If you do not want us to contact your child's school, please let us know before January 17, 2025. Please note that the teacher will only be contacted after our next communication with you.

Questions about the study?

Visit statistique.quebec.ca/growingupinquebec2018 or contact us at 1-866-433-7828 or at growingupinquebec@stat.gouv.qc.ca.

Thank you!

The *Growing Up in Québec* team

Additional information

Confidentiality and protection of personal information

This study is conducted in accordance with the *Act respecting the Institut de la statistique du Québec*. Your information will be kept confidential and will only be used for statistical purposes.

Ethics

The ethics committee appointed by the Institut de la statistique du Québec reviewed the study to ensure it is conducted in a way that respects participants and protects their dignity.

How did you obtain the contact information of schools?

The contact information of the schools attended by the children was obtained in accordance with the *Act respecting the Institut de la statistique du Québec*, and in compliance with the authorizations provided in the consent form signed during the first data collection sweep in 2018.
