1. Includes persons who held paid employment or were self-employed during the week preceding the census. However, workers without any fixed workplace address are not taken into account in the table.

The data on employed persons were compiled based on usual place of residence.

2. According to the geographic divisions in force on December 31, 2006.

3. Refers to the total number of persons residing in an RCM of the Lanaudière and who hold employment in or outside it.

4. Refers to the persons who work in the RCM, wherever their place of residence.

5. Refers to the result obtained by subtracting the number of employed persons in an RCM from the number of jobs therein. A negative result means that the RCM is a net exporter of manpower.

However a positive result means that the RCM is a net importer of manpower.
